

## Environmental Policy

ADAPT studio recognises the importance of environmental protection and will comply with all environmental legislation, regulations and appropriate codes of practice relating to the processes and activities of the company.

It is the company's objective to co-operate and maintain good relations with all regulatory authorities. It is the declared policy of ADAPT studio to carry out all reasonably practicable measures to continually improve its environmental performance.

Wherever possible, the company aims to:

- assess the environmental impacts of the company's activities during the manufacture of its products, the machines and transport;
- reduce the amount of waste produced;
- reduce the consumption of raw materials, water and fuels as much as possible;
- reduce and/or limit the discharge of pollutants to water, land and air;
- use recyclable and renewable materials in place of virgin products where possible;
- be a respective neighbour by minimising the impact that our activities and premises have on local communities;
- lessen the risk to employees and members of the public from processes and activities associated with the company.
- protect and, where feasible, enhance biodiversity on premises where we hold responsibility or to influence those that do;
- seek to influence our clients to adopt solutions that benefit the environment;
- Promote, as far as is reasonably practicable, responsible sourcing and the purchase of materials and services that through their use, sourcing or manufacture, have the least harmful effect on the environment;
- Minimise the need to travel, but, where travel is unavoidable, use modern and efficient modes of transport;

The company will foster environmental awareness and understanding in all employees, suppliers, customers and specialists.

Where practicable, the company will provide information and assistance to customers on environmental issues arising from its products and services.

It is the policy of ADAPT studio to report publicly on its environmental objectives and performances at regular intervals.
